Website: <https://iim.technion.ac.il>

Biographic Notes:

Dr. Shai Essel works for the Israeli Institute of Metal which is owned by the Technion (Haifa Israel). The Technion's IIM is a metals research institute situated in the interphase between academic research and industrial development. The institute has 55 full time employees and wide variety of semi-industrial metal production capacities. Aside from managing the Technion IIM's strategic activities Dr. Essel also is advisor for an Israeli SME in the field of aerospace light metal parts production, under this frame he is involved in leading their participation in CleanSky2 ("ecoTECH" project).
