# ...Partnerships policy

## A network based on talent & innovation

Optimize networking synergy to get innovations

## IW vision

- Anticipation of social and economical trends and keeping abreast of science and technological progress
- Offering innovations to promote competitive solutions for the EADS Business Units addressing air transport, space technology, security & defence products
- Enhance technological expertise and excellence by actively stimulating a world-wide network of internal and external resources

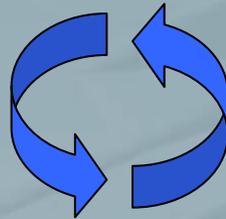

## **MISSIONS and OBJECTIVES**

- **The Innovation Works research portfolio is driven by the Divisions future products visions and the technologies needed to make them become real.**
- **Innovation works creates added value by developing and pooling resources and know-how of relevance for several divisions/BU. IW fosters cross-BU applications and points out potential synergies.**
- **IW monitors the emerging technology developments worldwide (together with Technology Watch) and generates ideas to fill the innovation pipeline for each division and for EADS new business opportunities.**
- **The IW research portfolio is managed by IW/Division steering committees.**
